

## CEG-4110: Team Weekly Reports

Team Name: The Chefs

Name of Submitter: Jordan Wilson

Reporting Week: Monday 1/19/2026

Number of team meetings during reporting week: 1

Total duration of meeting during reporting week: 1 hour

Date of Meeting	Team Members
1/20/2026	Jordan Wilson, Aditi Bhardwaj, Mason Moore, Garry Francis

### **Summary of work completed in the reporting week:**

Collectively merged questions for the professor before Jan 22nd. Once the original set of questions were answered, the team came up with follow-up questions to be asked during class time on Jan 22nd. All original sets of questions asked by each team, once answered, were put into a document to be sent through an AI to find any conflicting answers and to get rid of any duplicate questions and answers. The team took notes during class time Q&A session on Jan 22nd and sent that document through the same AI as the previous document.

### **Summary of work planned for next week:**

Work planned for next week is discussing the design plan for this project with the new requirements from the Q&A sessions. Sketching the page flow and architecture to divide tasks and start setting timelines on tasks. Deciding the requirements and dividing them into steps and tasks.
